Safety Tips

- Position on a flat and stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components or service panels on this product.
- Consult Local and National Standards to comply with the following:
 - Health and Safety at Work Legislation
 - BS EN Codes of Practice
 - Fire Precautions
 - IEE Wiring Regulations
 - Building Regulations
- DO NOT use jet/pressure washers to clean the appliance.
- DO NOT use the appliance outside.
- DO NOT use this appliance to store medical supplies.
- DO NOT use electrical appliances inside this product (e.g. heaters, ice-cream makers etc.)
- DO NOT allow oil or fat to come into contact with the plastic components or door seal. Clean immediately if contact occurs.
- DO NOT place more than 30kg load on each shelf.
- Bottles which contain a high percentage of alcohol must be sealed and placed vertically in the appliance.
- Always carry, store and handle the appliance in a vertical position and move by holding the base of the appliance.
- Always switch off and disconnect the power supply to the unit before cleaning.
- Keep all packaging away from children. Dispose of the packaging in accordance with the regulations of local authorities.
- If the power cord is damaged, it must be replaced by an agent or a recommended qualified technician in order to avoid hazard.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand

the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision. The instructions concerning persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge playing with the appliance are not required.

WARNING:

Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction. Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer. Do not damage the appliance circuit. Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.

Introduction

Please take a few moments to carefully read through this manual, correct maintenance and operation of this machine will provide the best possible performance from your product.

Pack Contents

The following is included:

- Refrigerator or Freezer
- Shelves x 4 or 5 (Single door)
- Keys x 2
- Instruction manual

We pride ourselves on quality and service, ensuring that at the time of packaging the contents are supplied fully functional and free of damage. Should you find any damage as result of transit, please contact your dealer immediately.

Installation

ⓘ Note: if the appliance has not been stored or moved in an upright position, let it stand upright for approximately 12 hours before operation. If in doubt allow the appliance to stand.

1. Remove the appliance from the packaging. Make sure that all protective plastic film and coatings are thoroughly removed from all surfaces.
2. Maintain a distance of 20cm (7 inches) between the unit and walls or other objects for ventilation. Increase this distance if the obstacle is a heat source.

ⓘ Note: Before using the appliance for the first time, clean the shelves and interior with soapy water.

3. Set the brakes on the castors to keep the appliance in position OR level the appliance by adjusting the screw feet.

Lock/Unlock the Doors

A lock is fitted to the doors to ensure foodstuffs are kept secure within your appliance.

Use the keys provided to lock/unlock the door
ALL COMPACT models are equipped with a door lock, ensuring that stocks are safe after closing.

The R600a and R290 refrigerant used by this appliance.

Fitting the Shelves

1. Place one set of shelf guides on either side of the cabinet at the desired height.
2. Slide the shelf into place.
3. Repeat for the remaining shelves.
4. The shelf supports up to 30kg.
5. The number of shelves depend on how many you want

ⓘ Note: this is vital for ensuring correct drainage of condensation
